

Choice IoT provides wireless connectivity solutions for IoT & Solution Providers

With decades of industry experience, our team is focused on helping our partners simplify how they manage their connectivity, allowing them to improve speed to market and increase profitability. Choice IoT provides mobile connectivity, including 4G LTE, 5G, CAT-M, NB-IoT and Fixed Wireless.

At Choice IoT, we understand the need exists for a reliable and trustworthy provider that delivers the lowest wireless costs for deployments. We design flexible and custom plans that fit the needs of your solution.

With CAMP™, our Award-Winning IoT Platform, you can streamline your operations, speed up your deployments, and improve your customer experience.

Benefits of the CAMP™ platform include:

Instant Activations

Real Time Data and Usage Reports

Track your deployments with Subscriber Name and Group Name

Mobile-Enabled – Activate/Deploy/Manage Anytime, Anywhere via any mobile browser

API integration – Extend the power of CAMP™ to your own IoT Platform

Secure your connectivity with Choice Private APN

Keep all your subscriber information in one place, with account management tools and Subscriber Notes

Reach out for a free consultation today and see how we can simplify IoT Connectivity for you

Your Choice IoT team is comprised of accomplished wireless business experts and engineers who spur the development of new wireless connectivity solutions and programs, enabling opportunities, enriching our customers, dealers and partners across all verticals. Our company is entirely built around helping our partners reach their potential. Your Success Is Our Business.
